09.30.19

Partner Whitney Salinas was profiled in *Law360* as a “Rising Star” in Real Estate for 2019. She was recognized for advising prominent real estate clients in several market-leading transactions, including Blackstone’s \$7.6 billion acquisition of Gramercy Property Trust. Touching on what makes the Firm’s Real Estate Practice special, Whitney points to how the team handles all aspects of a transaction. “We do everything from the acquisition of a property or a company as a single asset or a public-to-private transaction, to the disposition of a property, the financing along the way, refinancing and asset management. It enables us to represent our client over the entire life cycle of their investment,” Whitney says.
