Marc Berger to Speak at PLI's "Internal Investigations 2022" Program

09.23.22

Global Co-Head of the Firm's Government and Internal Investigations Practice Marc Berger will participate in the Practicing Law Institute's ("PLI") "Internal Investigations 2022" program on September 27th in New York. Marc, who was formerly the Acting Director and Deputy Director of the SEC's Division of Enforcement, will be a panelist, alongside senior regulators from the U.S. Attorney's Office for the SDNY, the SEC and the CFTC, on the "Internal Investigations: Regulators Roundtable" panel. The panelists will discuss regulators' perspectives on internal investigations, including how companies can navigate whistleblower issues; how to maintain a dialogue with regulators during investigations; and challenges posed by international investigations and cooperating with the government—such as navigating waiver issues and handling public disclosure of results—among other topics.
