Daniel Deacon is Counsel in the Firm's European financial services and funds regulatory practice, where he advises private funds, asset managers and private equity portfolio companies across sectors on EU regulatory matters and leads the team's focus on European-related derivatives and structured transactions.

Daniel advises on U.K. and EU financial market regulations and transactions, including AIFMD, MiFID II and UCITS, as well as helping asset management firms design, develop and structure investment products, including the democratization of access by ordinary investors to private markets investments. Daniel has extensive experience advising buy-side and
